Summary

I am passionate about teamworking in Agile world. My unorthodox entry into IT gives me a diverse edge with technical teams. I'm strong team player with collaborative approach towards stakeholders and knowledge sharing attitude and I always do my best to be able to distill complex issues into simpler, clear steps for action. I thrive outside my comfort zone which proves I am passionate about solving issues and searching for solutions in the best interest of the team. I am down to earth person who applies knowledge and experience from different fields into IT.
